

**63 12 499 Headlight conversion, tourist solution, RHD/LHD traffic**

+ 63 12 999

**Core activity**

**(-) Affixing adhesive film for tourist solution, driving on right/driving on left conversion, to headlight**

**Attention**

Commercially available adhesive tape will damage the plastic lens of the light.

Use only the special, black adhesive film for bodywork applications available from trade outlets.

- For changing from driving on right to driving on left, the special adhesive film must be applied to the marked surface.

**Attention**

Commercially available adhesive tape will damage the plastic lens of the light.

Use only the special, black adhesive film for bodywork applications available from trade outlets.

- For changing from driving on left to driving on right, the special adhesive film must be applied to the marked surface.

**(-) Removing adhesive film for tourist solution from headlight**

**Attention**

Damage to the plastic lens of the light.

Do not use solvents such as acetone, cellulose thinners, or similar products.

Do not use cleaning agents such as scouring powder or scouring solutions, and do not use scouring pads or similar products.

- Remove the adhesive film from the headlight.
- Use only a proprietary alcohol-based windscreen cleaning fluid to remove residues of the adhesive, if necessary.

**(-) Final check of work performed**

- Check that

- the work as performed achieved the intended purpose.
- all reservoirs and containers have been filled and that all fluids and lubricants are at their correct levels.
- all threaded fasteners released beforehand have been correctly retightened.
- the fuel system is free of leaks.
- the lights and signalling equipment are fully operational and that the motorcycle is roadworthy.
- the brake pads of the front and rear brakes are bedded against the brake discs.
